Australia's most awarded adventure tour.

[horizontalfallsadventures.com.au](http://horizontalfallsadventures.com.au)

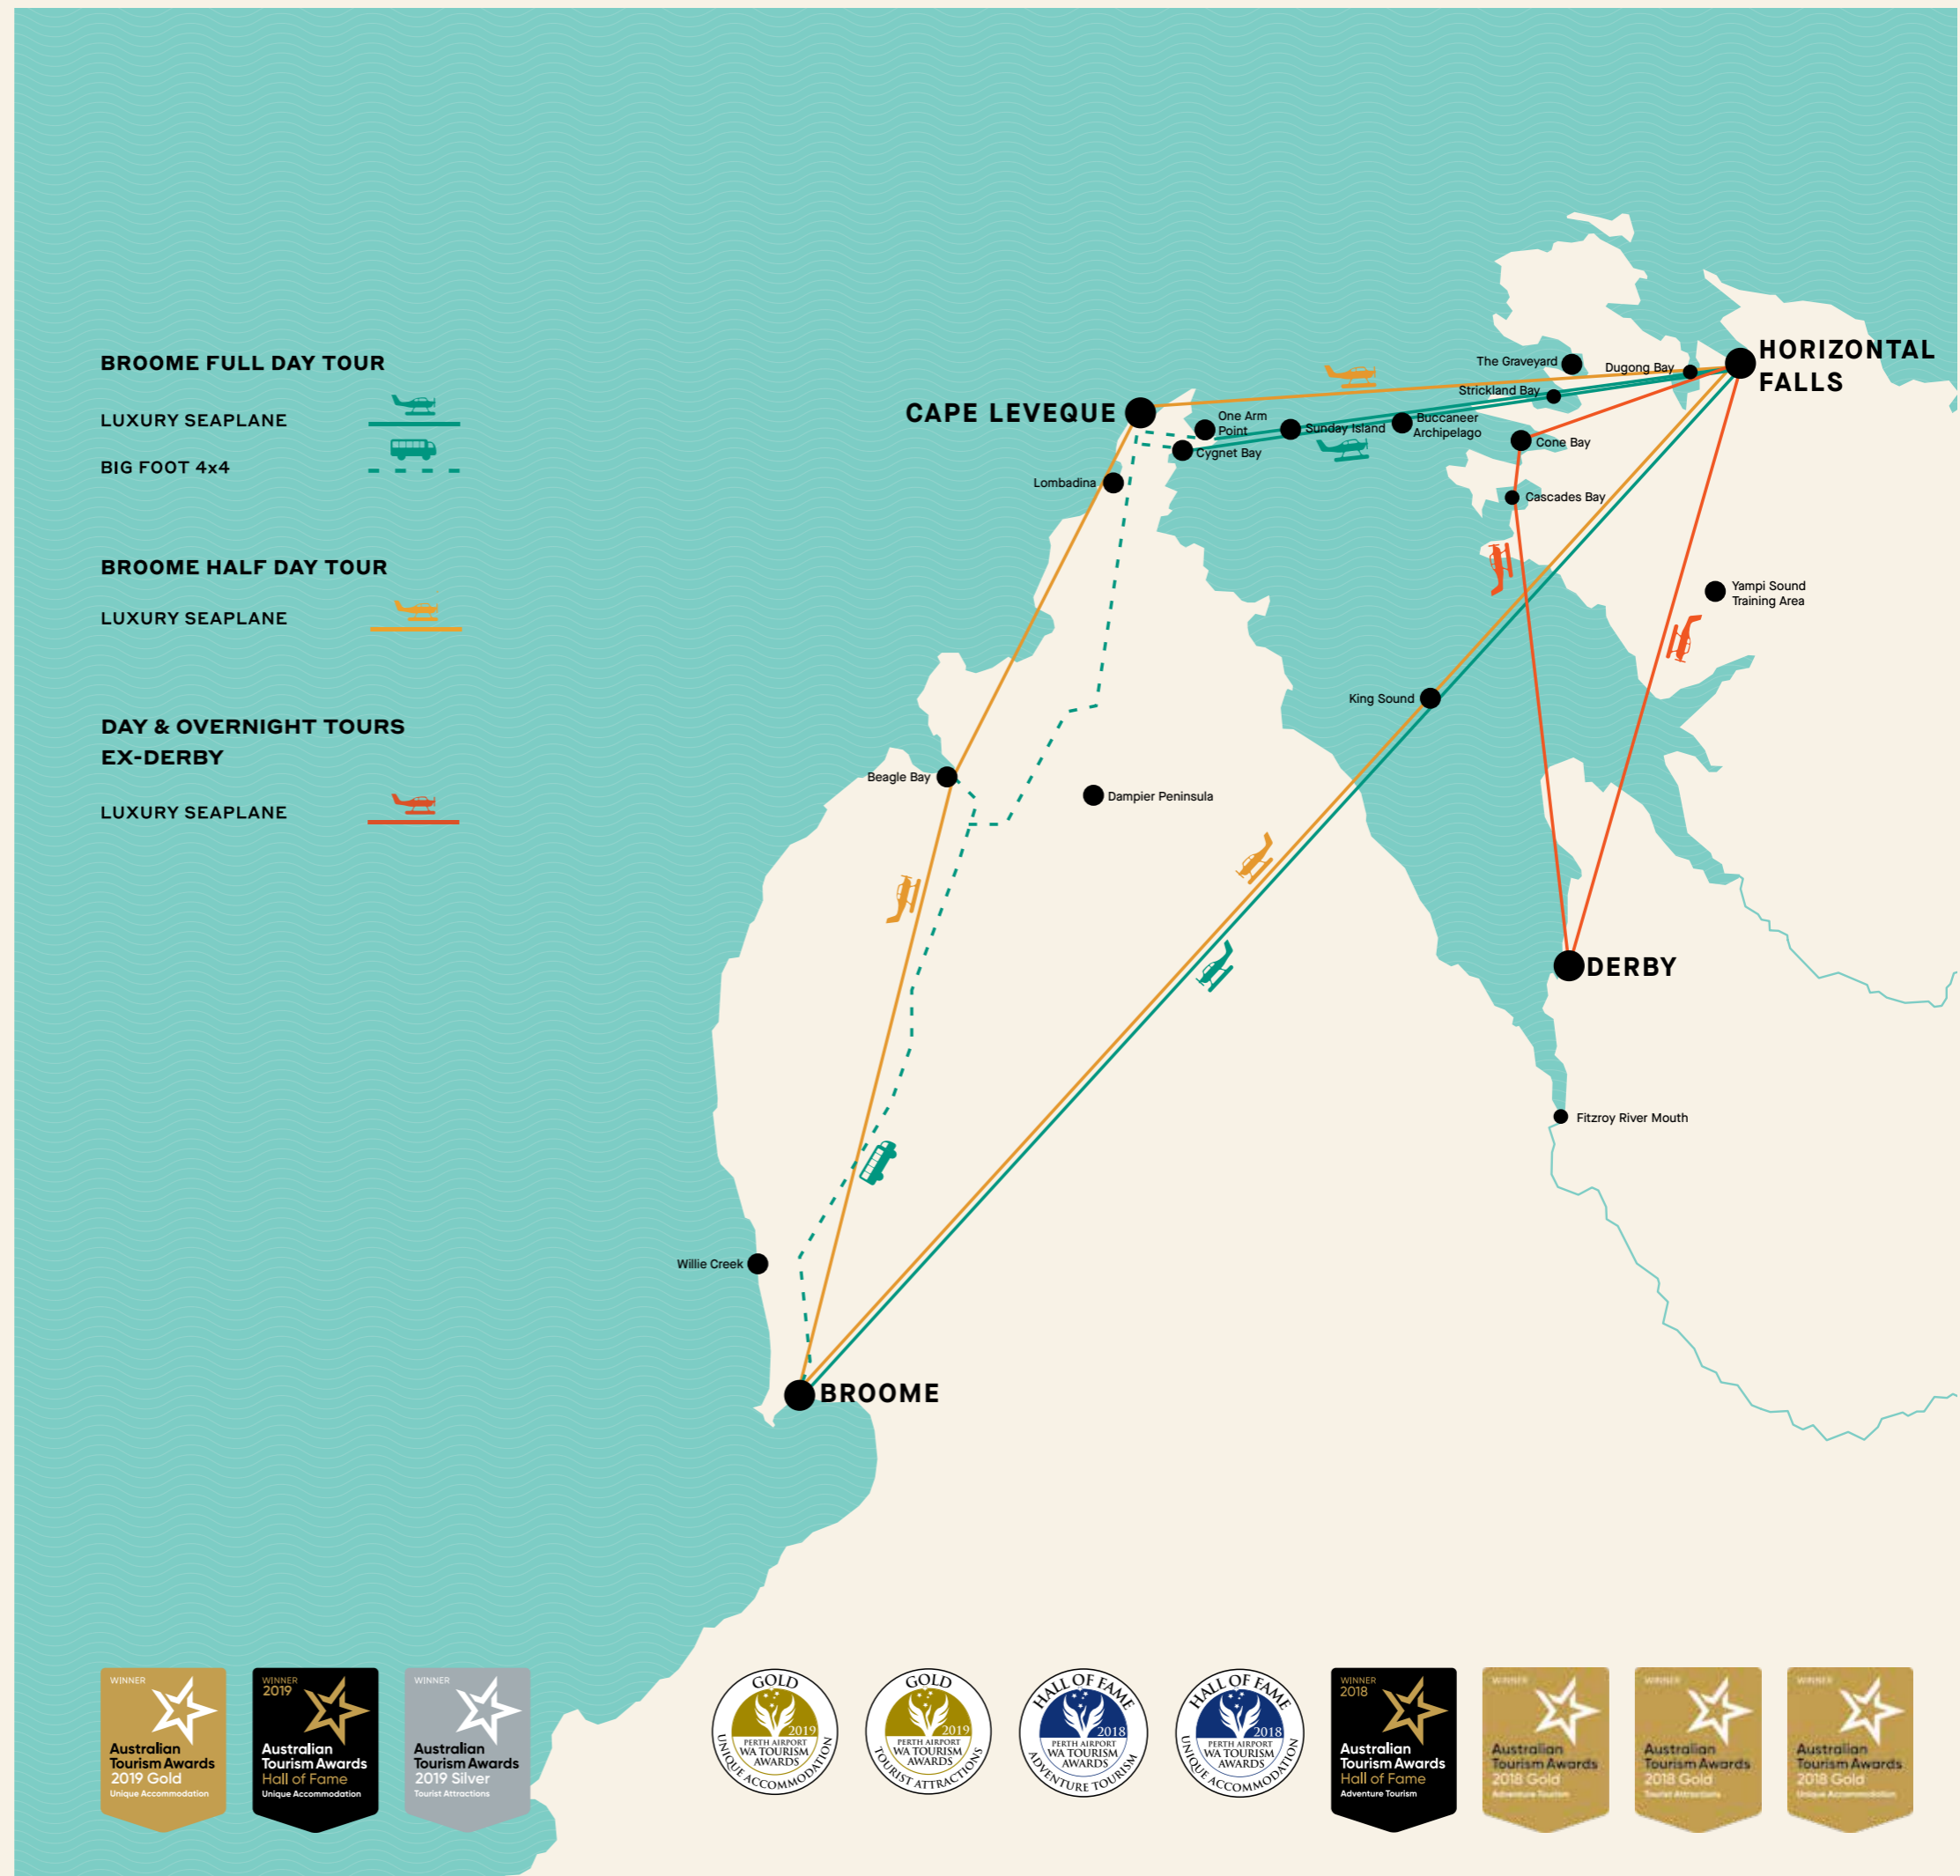

# SOAR. CRUISE. STAY.

The only Horizontal Falls adventure where you soar in on a seaplane, cruise through the Falls on a fastboat then take in the amazing surrounds right here in Talbot Bay. Discover one of the world's greatest natural wonders with the Horizontal Falls specialists.

For more than 12 years, Horizontal Falls Seaplane Adventures has been operated by a close-knit team of passionate locals. We use our unique insights and understanding of this great land to make your experience unforgettable.

The traditional name for the Horizontal Falls is Garaanngaddim. This is a word that in the local Worrorra language means 'floating over' referring to the way the tide here makes the water move like a bird.

Horizontal Falls Seaplane Adventures works closely with the Dambeemangarddee people who own and run the land in which we operate.

# NEAP TIDES

## Season Starts

Horizontal Falls Seaplane Adventures operate on a seasonal basis. The 2022 season commences on 30 March 2022 with morning half day tours only and full day tours and afternoon half day tours commencing on 14 April 2022 ex Broome. Tours Departing from Derby will commence on 1 May 2022. The Ultimate Horizontal Falls Luxury Stay will commence on 1 June 2022. Horizontal Falls season comes to a close on 11 November 2022.

PLEASE NOTE: Dates are subject to change.

## What are neap tides?

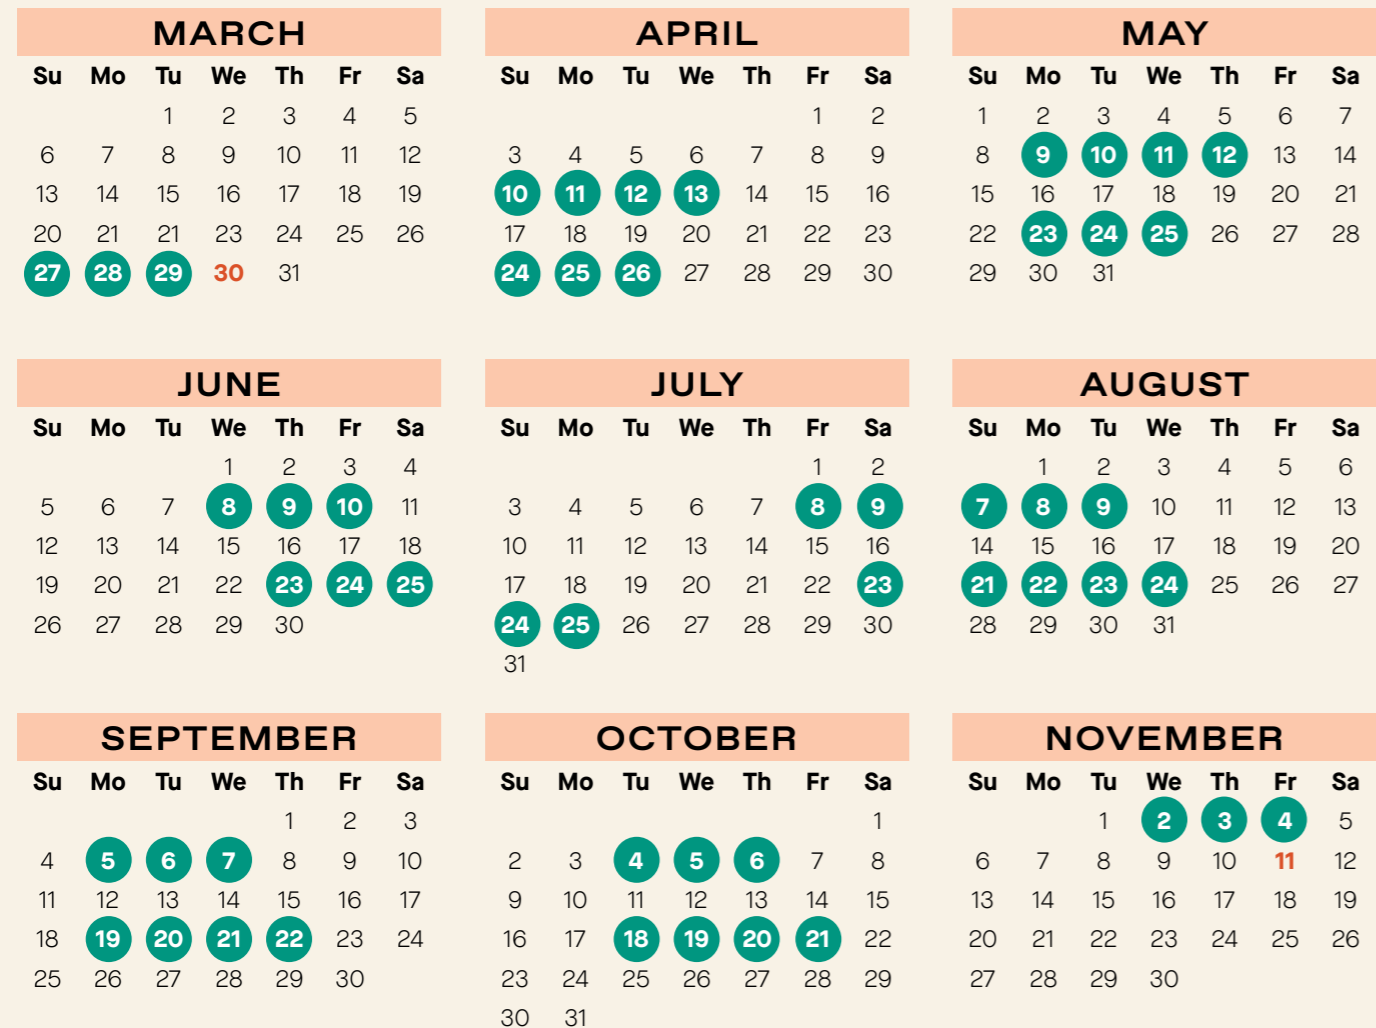

The Horizontal Falls are a natural phenomenon influenced by fluctuating tides that vary on a daily basis. As this is the case, operations only take place when the predicted tidal movements are not neap, so as to avoid taking guests out when there is the least difference between high and low tide.

The gravitational pull of the moon and the sun affect the Earth's tides on a monthly basis. Neap tides occur in relation to lunar and solar cycles. During either of the two quarter moon phases, when the sun and moon are at right angles to each other and their tidal influences partially cancel each other out, neap tides occur, and the tidal range is minimal. During each lunar month, two sets of neap tides occur.

## Dates not in operation due to neap tides

To ensure that guests have the best possible experience witnessing the incredible tidal power of the Horizontal Falls, Horizontal Falls Seaplane Adventures will not be operating on the highlighted neap tides dates below.
